TECHNICAL SKILLS

Frontend: HTML5, CSS, JQuery, Javascript, Bootstrap
Backend:MongoDB, Express, ReactJS, Node

PROJECTS

Movie Tracker | https://github.com/Mike-C-Sanders/Movie-Tracker |
https://mike-c-sanders.github.io/Movie-Tracker/

- Simple app for searching movies, getting information about the movie, and adding to a watch list.
- I worked with a team of 5 people to build this app. I was primarily responsible for handling the API calls and displaying the data on the page.
- Tools/Languages: HTML, CSS, JavaScript, Movie Database API

Weather Dashboard |
https://github.com/stone-com/JS-Weather-Dashboard |
https://stone-com.github.io/JS-Weather-Dashboard/

- Simple app to display current weather and 5 day forecast for any city in the world.
- Created as a solo project to practice JS and working with API's, specifically OpenWeather.
- Tools/Languages: HTML, CSS, Javascript, OpenWeather API.

Password Generator |
https://github.com/stone-com/Week-3-PW-Generator |
https://stone-com.github.io/Week-3-PW-Generator/

- Simple app to generate a password based on parameters set by the user.
- Created as a solo project primarily to practice JS and using user form data and functions to generate a password and display it on the page.
- Tools/Languages: HTML, CSS, Javascript

WORK EXPERIENCE

The Black Cat
2018-2021
Cook
Bellingham, WA
- Prepare and serve food promptly and courteously.
- Ensure quality of raw and cooked food items on a regular basis.
- Maintain a clean and sanitary kitchen area and equipment.
- Prepare all food with the consistency and quality standards set by the restaurant.
- Work with a team to ensure all food comes out at the same time.
